

# Appendix F: Accidents and First Aid

---

Version: 4  
Revision date: 11/01/2021

Due for review: 11/01/2022

## 1. All staff guidance

- 1.1 The purpose of this guidance is to set out arrangements for the provision of first aid for employees who are injured or become ill at work. This includes providing sufficient numbers of first aid trained staff and adequate and appropriate facilities and equipment to be able to deal with accidents, injuries and illness occurring in the workplace. It is important to remember that accidents can happen at any time. First aid provision therefore needs to be available at all times within a workplace.
- 1.2 As an employer UCQ are required to provide the following first aid provision:
- Suitably stocked first aid kit
  - An appointed person to take charge of first aid arrangements
  - Information for employees about first aid arrangements
- 1.3 Every employee has a duty under health and safety legislation to take reasonable care of the health and safety of themselves and that of any other person who may be affected by their acts or omissions whilst at work. Employees should also make themselves familiar with the first aid arrangements provided and, in particular, with the name and location of their nearest First Aider and first aid box. In the event of someone being injured:
- Locate the nearest qualified first aider (listed on notice boards)
  - Give the location and symptoms if known to the first aider
  - Keep the casualty warm, comfortable and above all as still as possible
  - On arrival, the first aider will take control and issue instructions accordingly
- 1.4 If the injuries are considered serious and Emergency services are required:
- Dial 999 ask for ambulance service, give brief details of type of casualty and ask for the ambulance to attend main entrance
  - Ensure reception are aware advising them that an ambulance has been called to an incident
  - Arrange for someone to meet the ambulance at the main reception and escort the ambulance crew to the location of the incident
