1. Purpose

- 1.1 The purpose of this guidance is to provide practical advice to ensure that any lone working carried out for the purpose of UCQ's business is undertaken in a controlled and coordinated manner, minimising any health and safety risks to members of the UCQ community.

2. Introduction

- 2.1 It is inevitable that at certain times, staff and others will find themselves working alone. These occasions can occur, for example, at the beginning and end of flexible working periods, during holidays, evenings and weekends. There is no overall legal prohibition on working alone, but the general duties of the Health and Safety at Work Act 1974, and the specific duties of the Management of Health and Safety at Work Regulations 1999 will apply.
- 2.2 These duties require the identification of the hazards in the work, formal assessment of any significant risks involved, and devising and implementing safe working arrangements to ensure that the risks are either eliminated or adequately controlled.
- 2.3 Staff will occasionally work alone at some point during their time at UCQ and in most cases they do so without significant risk. For example, persons working alone in offices carrying out typical office activities outside normal working hours are unlikely to be at significant risk, provided appropriate precautions and communications are in place.

3. Definition of lone working

- 3.1 A lone worker for the purposes of these arrangements is defined as someone who works on their own, an individual who undertakes work activities without direct or close supervision or direct contact with other colleagues.
- 3.2 In practical terms, persons are considered to be working alone if they have neither visual nor audible communication with someone who can summon assistance in the event of an accident, emergency or illness. Lone working is not where individuals experience transient situations in which they find themselves alone. e.g. alone in an office while other office colleagues are in a meeting.
- 3.3 Lone working is undertaken by a range of UCQ staff and by virtue of either their working hours, remote location or methods of working. Some common examples include:
 - Cleaning staff
 - Individuals who work on their own in the office
 - Home workers
 - Members of staff travelling alone on UCQ business
 - Members of staff working outside of core hours may also be lone working

4. Roles and responsibilities

- 4.1 Under the Health and Safety at Work Act 1974, UCQ as an employer has a duty to ensure, so far as is reasonably practicable, the health, safety, and welfare at work of all its employees. There is also a general duty of care to protect students and members of the public. These requirements are applicable to all work situations, including where staff (and others) are working alone, both on or off site or outside normal working hours.

5. Health and Safety Strategic Lead

- 5.1 The Health and Safety Strategic Lead will ensure arrangements are in place to mitigate the risk from lone working and effectively manage lone working in their areas of responsibility.
- 5.2 They will have an understanding of what lone working activities are taking place at UCQ.
- 5.3 They will ensure that appropriate resources for the safety of the lone worker(s), including appropriate supervision, and lone working accountability arrangements are in place.

6. Health and Safety Officer

- 6.1 The Health and Safety Officer will formally identify all lone working activities and ensure appropriate risk assessments are undertaken which identify the risk to lone workers and the control measures necessary to minimise those risks, as far as reasonably practicable.
- 6.2 They will communicate these arrangements to all staff and visitors.
- 6.3 They will ensure the lone worker is made aware of the hazards and understands all the necessary control measures that need to be put in place.
- 6.4 They will ensure adequate supervision, instruction and training are in place and that the lone worker is competent.
- 6.5 They will ensure monitoring of lone working practices is in place to ensure that control measures identified in the lone working risk assessment are being adhered to, including monitoring the effectiveness of the communication pathways agreed.
- 6.6 They will review lone working risk assessments at appropriate periodical intervals.

7. Line Managers

- 7.1 Line Managers will work with the Health and Safety officer to complete appropriate risk assessment for the lone working activity, which identify the risk to lone workers and the control measures necessary to minimise those risks, as far as reasonably practicable.
- 7.2 They will agree communication and emergency arrangements.

8. Employees

- 8.1 Employees will take care of their own safety and co-operate with UCQ procedures.
- 8.2 They should not knowingly place themselves in situations which expose them to additional risk by working alone. If a person finds that they are placed in a situation, which may be considered to be that of a 'lone worker', then they should ensure that the Health and Safety Officer is made aware of the circumstances at the earliest opportunity.
- 8.3 They will assist in the process of identifying the steps needed to either prevent the lone worker situation from arising, or, if this is not possible, assist in developing the precautions necessary to ensure their own safety.

- 8.4 Lone workers have a responsibility to inform the Health and Safety Officer if they have any concerns over the effectiveness and efficiency of the agreed arrangements and if there are any reasons why they would not be able to work alone or to continue to work alone in safety.

9. Risk Assessment

- 9.1 To satisfy the legislative requirements and ensure risks are as low as reasonably practicable, it is necessary for the risks associated with lone working to be assessed. A UCQ generic risk assessment covering all staff may be appropriate for a low risk environment e.g. lone working in an office completing desk based work. Specific risk assessments will be a requirement for high risk activities such as working in remote locations.
- 9.2 It is expected that the risk assessment process is undertaken as a collaborative exercise by the Manager, lone worker and the Health and Safety Officer and the agreed safe working procedures are recorded and communicated to all persons who may be required to work alone and any staff who have a role to play in ensuring their safety. All lone working risk assessments are to be completed in advance of the lone working activity.

10. Summary of required actions

- 10.1 UCQ will assess the risks to the lone worker by means of a risk assessment.
- 10.2 Once the risk assessment has been carried out and agreed by both the lone worker and the Manager, the necessary controls identified are to be implemented.
- 10.3 If required, the lone worker will need the correct information and training with regards to the hazards identified and the controls in place.
- 10.4 Arrangements are in place to establish a form of communication with the lone worker.
- 10.5 Periodical monitoring of lone working practices is to be carried out to ensure all procedures are correctly working.
- 10.6 Review lone working arrangements and risk assessments periodically, following changes or an adverse event.

13. Initial equalities impact assessment

Department: All	Completed by: Tara Henderson, Head of Policy & Governance	Date of initial assessment: 12/02/2021
Area to be assessed:		HS-001 Appendix G Working Alone
Existing or new policy/procedure:		Existing
What evidence has been used to inform the assessment and policy? (please list only)		
External guidance and requirements:		
<ul style="list-style-type: none"> ➤ Health and Safety at Work Act 1974 ➤ Management of Health and Safety at Work Regulations 1999 ➤ Internal guidance and requirements: ➤ Consultation with Health and Safety Officer and Health and Safety Strategic Lead 		

1. Describe the aims, objectives or purpose of the policy/procedure	The purpose of this guidance is to provide practical advice to ensure that any lone working carried out for the purpose of UCQ’s business is undertaken in a controlled and coordinated manner, minimising any health and safety risks to members of the UCQ community.			
2. Which stakeholders/groups are intended to benefit from this policy/procedure?	Staff and students			
The Equality Act 2010 requires public bodies to have ‘due regard’ to the need to:- (1) Eliminate unlawful discrimination, harassment and victimization (2) Advance equality of opportunity between different groups; and (3) Foster good relations between different groups	3. Could the policy/procedure have a disproportionately negative effect impact in terms of the aims set out in (1) to (3) of the Act on any of the protected characteristics?:- High Medium Low No effect	4. Briefly explain how the policy/procedure furthers or prevents the aims set out in (1) to (3).	5. If there is a disproportionately negative impact on any protected characteristics, can it be justified on the grounds of promoting equality or any other reason? If yes, please explain.	
Protected characteristics	Age	No effect	Not applicable	Not applicable
	Disability	No effect	Not applicable	Not applicable
	Gender	No effect	Not applicable	Not applicable
	Gender reassignment	No effect	Not applicable	Not applicable
	Marriage and Civil Partnership	No effect	Not applicable	Not applicable
	Pregnancy and Maternity	No effect	Not applicable	Not applicable
	Race	No effect	Not applicable	Not applicable
	Religion or Belief	No effect	Not applicable	Not applicable
Sexual Orientation	No effect	Not applicable	Not applicable	

6. Has there been any consultation/engagement with the appropriate protected characteristics?		Not applicable as no PC impact identified
7. What action(s) will you take to reduce any disproportionately negative impact, if any?		None required
8. Based on the information in sections 1 to 7, should this policy/procedure proceed to Full Impact Assessment? (recommended if one or more 'High' under section 2)		No
Assessor signature: 	Approved by: Michelle Elliott 	Date approved: 12/02/2021
